

Wiring Diagram

12W RGBW Landscape Spot Light · Model JXL-HW-D08

Low-Voltage Wiring Layout

Transformer (12V AC output)

Notes

Maximum total connected load must stay under the transformer's rated wattage.
Keep run lengths within the transformer manufacturer's voltage-drop guidance.
Use wire nuts or gel-filled connectors rated for direct burial at every splice.

This is sample/demo documentation for the Installation Guide feature. Replace with the real manufacturer document before this product goes live.
